At 1400 (time somewhat flexible) on August 1, 2013, EPA and the State counterparts listed below will be conducting a meeting in Baton Rouge, LA to discuss EXPLO Systems. If you or a Representative from DOD/US Army and the EPA Federal Facilities Office will be able to attend, please let me know. Also, let me know if you have any questions or suggestions for topics you would like discussed.

The agenda is being drafted, but topics that will be discussed are situational updates and background on EXPLO Systems, updates from each agency (current actions, concerns, etc.), future plans of each agency to address the EXPLO systems site, and a Q&A session/open discussion. A draft agenda will be provided for comment and finalized. (I would assume there will be questions about the ESB Report(s)).
